

Joint Bavarian-Russian Conference „Chemistry meets Biomedicine“

September 19-21, 2019 in Moscow

Dear Ladies and Gentlemen,

We would like to invite you to the Bavarian-Russian Conference “Chemistry meets Biomedicine” on September 19-21, 2019 in Skoltech, Moscow.

The goal of the meeting is to enhance Bavarian-Russian scientific relations at the chemistry-biomedicine interface devoted to basic research and development of breakthrough technologies. The conference is open to researchers from all countries.

The conference is organized by the Skolkovo Institute of Science and Technology (Skoltech), the Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU) and the Bavarian Academic Center for Central, Eastern and Southeastern Europe (BAYHOST). Last year we performed the first meeting in FAU, Erlangen (<https://www.chemie.nat.fau.de/ak-mokhir/chemistry-in-live-cells/chemistry-meets-biomedicine/>) and now would like to make an evolved conference in Skoltech, Moscow. We will be delighted if you participate as a speaker or visitor. Please forward the invitation to colleagues who might be interested.

Within the available budget, costs for travel and accommodation of speakers will be covered.

Please register by sending an e-mail to djukic@bayhost.de and t.zatsepin@skoltech.ru.

Information on the Skolkovo Institute of Science and Technology (Skoltech):

Skoltech (www.skoltech.ru) is located in the innovation and technology ecosystem Skolkovo near Moscow. It is a private English language graduate research institute that was established in 2011 in collaboration with the Massachusetts Institute of Technology (MIT). Skoltech puts particular emphasis on entrepreneurship and innovation.

Several Centers for Research, Education and Innovation (CREIs) address critical challenges in Data Science & Artificial Intelligence, Life Sciences and Biomedicine, Cutting-edge Engineering & Advanced Materials, Energy Efficiency, Quantum Technologies, and Advanced Studies. They are the key building blocks in the effort to develop a graduate university that combines education, research and innovation seamlessly. Skoltech offers master’s programs and PhD programs in English language in these areas. Stipends are available.

Apart from MIT, Moscow State University, Technical University of Munich (TUM), Waseda University (Tokyo) and companies like Siemens, Boeing, AstraZeneca and Cisco are among the international partners of Skoltech.

Skoltech is interested in increasing the exchange of students and academics as well as research cooperation with partner institutions in Germany and all over the world.

On behalf of the organizing committee,
Prof. Timofei Zatsepin, Skoltech
